

   	<h1>Amherst County Fire/EMS</h1> <h2>Standard Operating Guidelines</h2>	
	Subject:	Automatic Aid & Mutual Aid
	Reference Number:	
	Effective Date:	May 1, 2025
	Revision Date:	N/A
	Signature of Approval:	Chief of Fire/EMS

Purpose:

- Define and establish a standard for automatic and mutual aid responses

Definitions:

- Automatic Aid – Second and/or third-due company assigned upon the initial dispatch based on pre-determined criteria. Examples of Automatic Aid situations include structure fires, commercial fire alarms, etc.
- Mutual Aid – Request for additional resources that are specifically needed and manually requested. Also applies when first-due department does not have available resources to respond, so the second and/or third-due is requested.
- First Due – The primary territory district of a department. For example, the Town of Amherst is in Amherst Fire Department’s first-due district.
- Second Due – The area in which a department is the second closest or is pre-determined to be the second response agency to a specific location.
- Third Due – Following first and second-due, this is the area in which an agency would be the third agency called for a specific location

Outside of County Response:

- NO PERSONAL VEHICLE is to respond to any call outside of Amherst County unless approved by the department chief or his/her designee.
- All members responding on the company apparatus shall be certified in Firefighter I. No junior/non-certified member shall respond on the apparatus.
- *City of Lynchburg Response:* Respond with appropriate or requested apparatus and maximum staffing, leaving 1 empty seat for a Lynchburg Firefighter to join, if possible and/or necessary.

Mutual Aid Responses into Amherst County:

- All personnel from mutual aid departments responding to incidents within Amherst County shall immediately check-in at the Command Post upon arrival at the scene.
- All personnel operating within Amherst County shall adhere and be held accountable to all guidelines within this document. Copies of Amherst County SOGs shall be shared with all mutual aid departments and partners within the region.

Nature Codes:

The following page contains a comprehensive list of the fire dispatch nature codes and the pre-designated resources automatically assigned to them.

Description	PS Response	Number of Fire Departments	Ambulance Needed	Notes
