Amherst County Welcomes New Network Specialist

Amherst County is proud to announce and warmly welcomes Michael King as our new Network Specialist. Michael will be performing a wide variety of network related responsibilities as well as offering assistance to all county departments with any type of technology related needs. His diverse background as a network analyst, as well as working extensively in the role of end user support made him an ideal candidate for this position. We look forward to having him with us and being part of our Information Technology team.

Michael grew up in Nelson County and graduated from Nelson County High School in 1988. Soon after graduation, he began a long career with State Farm Insurance. In 2001, while working full time and taking classes at night, Michael was able to earn his bachelor's degree from Averett University. During his 29 years with State Farm, he held several positions with the most recent being Network Analyst, in which he supported employees and agents located across the county with their IT needs. Michael enjoys technology

and cannot wait to put his diversified skills to use by helping the citizens and employees of Amherst County.

Additional information may be obtained from Tyler Creasy at stcreasy@countyofamherst.com or (434) 946-9400.
