## Planning Starts for Former CVTC Facilities

Amherst County is working with the Lynchburg Regional Business Alliance to launch the Training Center Redevelopment Plan with the aim to redevelop the Central Virginia Training Center.

A website has been created to allow the community to follow the planning process and provide input to the committee. Creating a Redevelopment Plan will help guide policy makers, developers, and stake holders in the future. All parties involved are working hard to create a space that will add value to both the Madison Heights and Lynchburg regional communities.

The next step in the redevelopment process is inviting the community to provide input to the project team. This will provide the project team with an understanding of what the community hopes to see and assist the planners as they determine the future growth and development of the Training Center site.

To provide input on the redevelopment plan, visit: <http://trainingcentermasterplan.com/>. The survey will be available on the website until Monday, October 26, 2020. Community members can sign up on the contact page and will receive more information on future engagement opportunities as it becomes available.

The Alliance received a GO Virginia grant in the amount of \$100,000 to assist in the execution of a redevelopment plan. The grant is being matched with \$150,000 from Amherst County, the Amherst County Economic Development Authority and surrounding localities who are members of the Central Virginia Planning District Commission.
